

UNLEASHING THE POWER WITHIN; A MANIFESTO FOR A STRONGER MEDICAL
STUDENT COMMUNITY PRESENTED BY JESSICA AGEJIBADIRA DIDERA.

Fellow medical students,

Today, I JESSICA AGEJIBADIRA DIDERA present to you a transformative vision-a manifesto for a stronger MSA. Together we have the power to make a difference.

This manifesto outlines our roadmap for progress. But a manifesto is more than word; it is a call to action. With your support, engagement and endorsement, we will create a lasting change.

Together, we will forge a path toward a stronger community-one that amplifies voices and embrace excellence.

Let us ignite the fire within us and embark this journey together.

In the vibrant realm of medical education, fostering a strong and inclusive community is paramount to our collective success. As a candidate for the Vice President of the Medical Students' Association, I present a comprehensive manifesto that aims to enhance the experiences and opportunities available to every student. Through the pillars of mentorship, committee enforcement, inclusive participation, and female empowerment, I aspire to build a cohesive and supportive community that will propel us towards a brighter future.

First of all, a key aspect of my vision is the establishment of a MENTORSHIP HUB within MSA. This transformative initiative seeks to bridge the gap between clinical and preclinical year groups from PBL1 to PBL6. By creating mentorship groups, we will cultivate an environment where experienced students can guide and assist their peers. Through collaboration and

knowledge sharing, we will unlock the full potential of our collective wisdom, providing invaluable support and encouragement as we navigate the challenges of medical school.

Secondly, Enforcement of MSA Committees and Maximizing Efficiency. To streamline the MSA's operations, I pledge to enforce the regulation of all standing committees while establishing ad hoc committees. By doing so, we will alleviate the burden on existing committees, granting them the opportunity to operate with greater specificity, efficiency, and effectiveness. Each committee will be checked to make sure they carry out assigned tasks and responsibilities, enabling us to address diverse student needs comprehensively. This approach ensures that no voice goes unheard and that every medical student finds an avenue to contribute meaningfully to our community. By optimizing committee structures, we can foster an environment of collaboration, collective growth and impactful change.

In addition, I dub this policy "*All Out for MSA: Embracing Inclusion and Participation*". Inclusivity lies at the heart of my vision for MSA. To promote the active participation of all medical students especially those in parallel classes, I will prioritize cooperation and consider the concerns of all students. It is crucial to embrace the diversity of schedules and learning needs within our student body. By organizing events, workshops and meetings that accommodate different classes, we create an environment where every medical student feels valued and involved. This will amplify the spirit of cooperation, strengthening the bond that tie us together as a united community. Through increased participation and shared experiences, we will propel MSA forward, achieving greater heights of excellence.

Also, recognizing the unique challenges faced by female medical students, I will collaborate closely with the SRC Women's Commissioner to address their specific needs within the MSA. The Female Medical Series will be a groundbreaking initiative that aims to empower women in medicine. It will encompass workshops, seminars, and mentorship programs that address gender-related issues. I strive to create a supportive environment that fosters the acquisition of extra skills among female medical students. By empowering our female colleagues, we unlock their full potential, creating a more inclusive and diverse medical community.

Most importantly, I am dedicated to supporting and assisting the president in all his duties. I firmly believe in the power of collaborative leadership and recognize the importance of a cohesive team. I will work hand in hand with the President and other executives, providing unwavering support, sharing responsibilities, and ensuring the smooth functioning of our association. Together, we will strive to achieve our shared vision and goals, representing the best interests of our fellow medical students and fostering a thriving community of future medical doctors.

In conclusion, my manifesto for Vice President of MSA stands as a testament to my unwavering dedication to building a stronger medical student community. Through the pillars of mentorship, committee enforcement inclusive participation and female empowerment, we will forge a path towards collective success. Together, we will bridge that gap that divide us, maximize our efficiency, embrace inclusivity, and empower each and every student.

As your Vice President, I pledge to tirelessly work towards creating an environment that fosters growth, mentorship, and collective triumph.

Let us come together and embark on the transformative journey, uniting us as a community to shape the future of MSA.

Thank You!
